# Goods Arriving

Our many Departments require frequent purchases and rapid selling prices soon run out stocks.

### Our Novelty Department on Second Floor

Is a winner. The prices are not met anywhere, and the goods are new and up to date. The variety is bewildering. One can hardly imagine the article that are shown for the money.

For One Cent—many things that have always brought 5 cents. For Two Cents—the bargains appear greater, the range larger to select from hundreds of articles that you always pay 5 to 10 cents for. For Three Cents. Larger, better and more of a variety, better quality, but the bargains are not excelled—and for Five Cents many articles that bring 10 and 15 cents. The surcelled—and for Five Cents many articles that bring 10 and 15 cents. The surprise becomes greater when you see the large, the good, the fine, the unusual, quality, size, style, and values, for such a small amount, and the Ten Cent offerings are wonderful when compared with the usual prices asked for the same goods elsewhere. Roll of fine Crepe Tissue Paper, Fancy Coral Shades, Gold and Silver Plate Bracelets, Pair Hose Supporters, Large Vaies, China Cup and Saucer, decorated China Plate, Bath Towel, Fine Harmonien, Shaving Mug, Decorated Cream Pitcher, Large Decorated Bowl, Molasses Can, Large Glass Berry, Dish, Gents' Linen Handkerchief, Fine Sea Shell, Windsor Ties, Box 3 Cake Toilet Soap, Pompadour Comb, full Trimmed Lamp, large Doll. 136 Front St., Marietta, O Subscribe for the Daily Leader. CAMPS FOR CONSUMPTIVES.

New Cold Weather Treatment Which Is Soon to Be Inaugurated in Boston,

As soon as the weather will permit and proper locations can be se-lected there will be pitched near Boston the first of a number of camps for consumptives. This camp will consist of ten piano-box tents, ranged in a circle with an open air fire in the center and surrounded by a duck wall eight feet high. Each of these tents will be a consumptive home; a consumptive will sleep there, even through the coldest weather, with no other protection than plenty of blankets, felt sleeping boots and a

two-gallon jug of hot water.

The tents are only seven feet high, with four-foot walls, boxed in around the bottom a foot from the ground. the people who live there will wear one heavy suit night and day. They will each take one quick, soapless bath a week and will eat three good hearty meals a day, with coffee in the morning and hot chocolate any time of the day or night. Their bill of fare will include milk, eggs, vegetables, bread and butter and meat, chiefly beef, mutton or pork. This open life is expected to cure the ocsupants of their disease. The method is the result of experiments made last winter in a tent on Huntington avenue.

#### CROPS IN RUSSIA.

Late Reports Show That Farmers in the Czar's Domain Are to Have Big Yields.

Latest reports to the state department from Russia indicate that the conditions in the great grain-growing districts of the Rusisan empire have been extremely favorable during the entire senson, both for winter and spring sown grain. It is the rule throughout Russia that from winter to summer the change is sudden, without gradual rise of temperature.

This year, however, there was a long interval, or in other words, a spring. Rain has been abundant, and there are reports that some damage has resulted therefrom. Nevertheless, the harvest this year will be one of the largest for all cereals Russia has had for many years.

The hay crop already saved is exremely large. Wheat, rye, oats and barley, according to the most reliable accounts received, will be more han an average yield.

In order to give an idea of the trenendous average annual output of hese cereals the following table is

NEGROES ARE BARRED.

Will Not Be Allowed to Enlist in the First Cuban Artillery, It Is Said.

That negroes are barred from enisting in the First Cuban artillery is stated by the New York Tribune correspondent at Havana. One hundred and fifty "Cubans" will be enlisted. All must be 21 years old or more, and white. Negroes will not be received s candidates for enlistment. Enlistment will be made similarly as in the United States and will be for a term of two years. One of the first questions to arise concerning the enlistment was as to who are "Cubans" within the terms of the order. In the absence of Gen. Wood, Acting Military Governor Scott explained that "in order to be eligible the candidate must be a Cuban citizen by birth or option." And now there seems to be some doubt as to how Cuban citizenship is fixed until the new constitution goes into effect.

Gives His Airship Away. It now transpires that M. Deutsch with drew from the airship competition at Paris because he was piqued at the suggestion that he wanted to have his own prize of 100,000 francs The D. &. Deufsch the hub of the inland seas, where cool bas not only renounced all personal breezes blow and black bass bite. Send competition, but will hand over the airship which he has been designing to M. Victor Latin, the only member of the Aero club whose studies have been crowned by the Academy of Science. M. Deutsch will supply the Defective Eyes funds to build the airship and also perfectly, and the promises to give prizes for an annual competition.

> New Light Cure for Lupus. A dispatch to the London Daily Mail from Copenhagen says that Dr. Sophus Bang, manager of the laboratory belonging to Prof. Finsen, an inventer of light cure for lupus, has constructed a special electric lamp giving a feeble light, but which is extremely rich in chemical rays. The dispatch adds that Dr. Bang uses metal instead of carbon poles. The bacteria killing power of these lamps is ten times as great as that of an ordinary lamp and a lupus patient requiring 75 minutes' treatment with the are lamp will require only from three to five minutes' treatment with the new one, which costs only about
